

Gloxad Academy Web Interface

- Objective: To create an accessible, user-friendly platform that revolutionizes education across Africa and beyond, leveraging innovative technologies to provide quality education to all.
- Interface Design: Sleek, modern, and intuitive design using Figma. Features a clean layout with easy navigation, ensuring a seamless user experience on both web and mobile platforms.
- User Flow: Simple and logical user journey from sign-up to course enrollment and completion. Focused on minimizing clicks and steps, ensuring users can easily navigate through the platform.
- Interactive Elements: Incorporates interactive features like login forms, email verification, course selection, and token reward notifications. Ensures engagement and smooth interaction with the platform.
- Data Integration: Integrates blockchain for token rewards, user progress tracking, and decentralized governance via DAO. Ensures secure and efficient data handling.
- Feedback Integration: Continuously collects user feedback through in-platform surveys and direct interactions. Uses feedback to make iterative improvements to the platform, enhancing user satisfaction and engagement.
- Tools Used: Figma for designing the interface and interactive elements.
